
Once Upon a Time!

AS far as I was aware the single Tim created around the time of Goodbye and Hello, "once upon a time" had never surfaced anywhere, and I'd assumed was lost to posterity... but theres another Nuggets box set coming out, and there it is, on the fourth disk!

Tis called "where the action is! Los Angeles nuggets 1965 to 1968"

and hopefully, heres the amazon link...

Can't tell you how excited i am by this, despite thinking it mightnt be typical, given Tim wrote it to be as commercial as possible IIRC.... and annoyed that the B side track isnt on there!

Anyone else heard this? I think its a great little track - no need to be scared f it after all, wuith a neat bit of Buffalo Springfieldy guitar going on there!

That would have sat well enouhg on goodbye and hello (sacrilege i know but I think it could happily have replaced a track or two!)
